Veterans Health Administration Update PTSD Research Quarterly (4 issues/yr)

Having trouble viewing this email? [View it as a Web page.](#)

The latest issue of the PTSD Research Quarterly (RQ) is now available.

**[Understanding Research on the Epidemiology of Trauma and PTSD](#)
RQ Vol. 24(2-3), 2013, by Norris, F. and Slone, L.**

This issue includes research on both civilian and military populations. In addition, we attempt to educate the reader about definitional issues in epidemiologic research and the influences yielded by changes in the American Psychiatric Association's Diagnostic and Statistical Manual over time. Because of this breadth, this review is being published as a special double issue. Read more...
