Great Location Incredible Opportunity

The City has recently begun a bold, dynamic master plan transforming our downtown "D" Street corridor into an icon for the City of Perris. This landmark civic venture will create a signature transit and pedestrian-oriented corridor along the 2.0 mile stretch of the street. Stretching a half mile wide at times, the project is a melting pot of people, culture, institutions and activities making this an incredible location for restaurants and retail stores alike. A key feature of the revitalization project is the introduction of the Metrolink commuter train system that links Perris to Riverside. Stretching 22 miles, this \$120 million project expects to accommodate an estimated 2,500 passengers a day. This service is expected to be utilized by people living throughout Southwest County. There are many benefits to opening and/or expanding your business in Downtown Perris.
