Where Communities Serve Veterans®

## Who we are

We are a national public benefit nonprofit organization that educates American Communities about best practices to serve Veterans. We honor their service by empowering Veterans to apply their training and skills to successfully transition to productive careers and enterprises.

We provide free vocational training 24/7 to all of our members through our website, in addition to local events. We believe the tenet that American Communities are the ultimate beneficiaries when Veterans claim their benefits and invest in productive endeavors.

The SWVBRC enlists the support of members of local Communities like you to increase Veteran awareness of the value of obtaining a VA card and receiving earned benefits.

Sponsorships, donations, volunteers and support from communities like yours enable us to reach out to Veterans and empower them to transition back into successful, productive enterprises that ultimately benefit all Americans and support future generations.
